Common Errors

"eBook has been downloaded or fulfilled by another user or account" or "E_LIC_ALREADY_ FULFILLED_BY_ANOTHER_USER."

This error occurs when you try to download a borrowed eBook that you've already downloaded to another device, and the software on that device was signed into (or "authorized") with a different OverDrive account, library card, or Adobe ID than you're using now.

To fix and prevent this error, make sure you're using the same OverDrive account, library card, or Adobe ID to sign into (or "authorize") the OverDrive app or Adobe Digital Editions on all of the computers and mobile devices that you're using to download eBooks.

An .acsm file downloaded to my computer. How do I open this file?

This file delivers DRM (digital rights management) eBooks to your computer, tablet, or smartphone. Use the OverDrive app to open it.
